

Leslie Robotics

SPONSOR INFO

What we represent:

Our Leslie High School robotics team, the Bongo Bots, has been around for four years. Last year, we added a Woodworth Elementary program for ages 6-11 called Lego League. This elementary program has grown from 3 teams to 6 in just a year. This year, we are adding a Leslie Middle School team for First Tech Challenge, the HackerHawks. Your support will help grow and support all of these programs.

Through the programs, students are able to utilize these skills:

- Collaborate as part of a team

- Work well with tools, code, and electronics

- Communicate well with teammates, sponsors, mentors, judges, and community members

Team Organization:

- 75+ students

- A team of school teacher and community member coaches and mentors.

- A new to us space for robotics located at Leslie Middle School.

Sponsorship Levels - Tiers are cumulative.

Sponsorship Level Perks
